TURBOchannel Technology Transfer Agreement

Grant of Right to Use TURBOchannel Technology

In exchange for your agreeing to the warranty disclaimer and liability limitation stipulated in this Technology Transfer Agreement, Digital Equipment Corporation (Digital) grants at no cost to you a royalty-free nonexclusive license to use TURBOchannel technology (as specified in the *TURBOchannel Specifications*) to design and develop any kind of option board, computer system, or application-specific integrated circuit (ASIC). This Agreement does not grant you any other rights in Digital's patents, copyrights, trade secrets, trademarks, or licenses to TURBOchannel technology. The purchase cost of the TURBOchannel kit is basically the cost to reproduce the materials.

Warranty Disclaimer

The TURBOchannel technology is transferred "as is." Digital expressly disclaims all implied warranties including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose. Digital does not warrant, guarantee, or make any representations regarding the use of or the results of the use of the specification and related documents in terms of correctness, accuracy, or reliability. Digital believes the documentation is accurate; however, you must assume the risk as to the results and performance of any product you develop that is based on the TURBOchannel technology.

Limits of Liability

You agree that Digital shall not be liable to you under this Agreement for any damages, including without limitation any lost profits or lost savings, or any consequential, incidental, or punitive damages arising out of the use or inability to use the TURBOchannel Hardware Specification and related documents, or for any claim by another party. Your exclusive remedy under this Agreement shall be the furnishing by Digital of the technical support provided herein. You agree to hold Digital harmless for all claims and damages arising from any third party as a result of their use of or inability to use any product you develop based on TURBOchannel technology.

Specifications Package Overview

The ***TURBOchannel Specifications*** contains the following information:

- The ***TURBOchannel Hardware Specification*** contains the following:
  - Interconnect architecture
  - Signals
  - Transactions
  - Addressing
  - Electrical parameters
  - Power
  - A description of the connector
- The ***TURBOchannel Firmware Specification*** contains the following:
  - A TURBOchannel system overview
  - System and option module firmware, including ROM formats and diagnostic, console, and bootstrap firmware
  - System module callback routines
- ***TURBOchannel Mechanical Drawings*** shows the physical dimensions of TURBOchannel options.
