*Available as an Independent option.

Protection with discretion. Protection with capability. Protection with reassurance. The new Defender Armoured is almost indistinguishable from the standard Defender and has been engineered to meet VR7 level with independent whole vehicle test validation by QinetiQ® in accordance with European Standard BRV 2009 VR7. Of course, nothing comes close to Defender when it comes to taking on, and beating, some of the world's toughest terrain. With its permanent four-wheel drive it gives optimum all-weather performance on and off-road. This capability is uncompromised in the new Defender Armoured and the standard vehicle's payload parameters remain. What's more, it can carry up to seven passengers*, making it the ideal vehicle for organisations such as NGOs and oil or mining companies that work in harsh environments.

*Cost option

Reassurance

Defender Armoured is the first ever 'factory approved' discreetly armoured Defender, which has been developed in conjunction with RMA Group. The new Defender Armoured is validated to B6 level protection by QinetiQ®. It means that the new Defender Armoured has been rigorously tested, and passed, as a complete vehicle – not just the materials and components that have been fitted to it. As an approved product the vehicle maintains its full 50,000 mile (80,000km) manufacturer's warranty and can be repaired or serviced within Land Rover's extensive worldwide network of approved dealers.

Protection

The new Defender Armoured contains bullet resistant glazing, ballistic steel armoured and Kevlar® floor protection which contribute to ensuring the vehicle can withstand an attack from high velocity, high calibre bullets and help to provide optimum occupant protection while being contained within the original 3,500kg gross vehicle weight.

Capability

The additional weight of armoured protection on the new Defender Armoured does not compromise agility and performance with upgrades to the brakes and the addition of OEM heavy duty suspension. The vehicle retains its legendary capability and is ready to take on difficult conditions. Defender Armoured also maintains flexibility and capacity.

IMPORTANT NOTICE: All Land Rover Armoured vehicles are subject to international export control legislation. Please contact the Armoured team at Land Rover for further information.

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. Whilst every effort is made to produce up to date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Dealers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation.

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Land Rover Dealer.

To maintain the vehicle's discreet appearance, this brochure contains images of both armoured and non-armoured vehicles. For details of all armoured features please contact the Armoured team at Land Rover: armoured@landrover.com
